

NICOLAS DELGADO

FULL STACK SOFTWARE ENGINEER | PYTHON · TYPESCRIPT · REACT · NODE.JS

Toronto, Ontario | 437-260-7527 | nicolas.felipedelgado@gmail.com | linkedin.com/in/nicolas-felipe-delgado/ | nicky10.github.io/ReactPortfolio

PROFESSIONAL SUMMARY

Full-stack Software Engineer with 4+ years of commercial experience building and operating production web applications with Python/FastAPI, TypeScript, React/Next.js, Node.js/NestJS and PostgreSQL. Strong end-to-end ownership across product development, APIs, integrations, automation, CI/CD, Docker and production support, with measurable business impact.

CORE SKILLS & IMPACT

Full-Stack Engineering: Python, FastAPI, TypeScript, React, Next.js, Node.js, NestJS - production applications including a placement platform serving 100+ users/week

APIs & Automation: REST APIs, webhooks, scheduled/background workflows, third-party integrations - automated previously manual processes by ~90%

Data & Backend: PostgreSQL, SQL, TypeORM, Prisma, Sequelize, JSONB, schema design, migrations, data-integrity troubleshooting

DevOps & Delivery: Docker, GitHub Actions CI/CD, automated build/test/type-check pipelines, DigitalOcean, Cloud Run, health checks, Sentry and SonarCloud

Cost & Productivity Impact: Immiland Sign reduced annual operating costs by ~\$20K and increased document-processing productivity by 35%

Revenue Impact: Consultation/payment workflows and integrations enabled \$10K+ in additional monthly revenue

PROFESSIONAL EXPERIENCE

Software Engineer - Immiland Canada | Toronto, Ontario | Apr 2024 - Present

- Own full-stack features end-to-end across React/Next.js/TypeScript, Node.js/NestJS, Python/FastAPI and PostgreSQL, from technical design and implementation through testing, deployment, monitoring and production support.
- Built and launched the PIE placement-testing platform, supporting 100+ users per week through automated assessment, scoring and results workflows.
- Built Immiland Sign end-to-end, reducing annual operating costs by approximately \$20K while increasing document-processing productivity by 35%.
- Designed REST APIs and webhook-driven integrations across payments, scheduling, communications and business systems, accelerating previously manual processes by approximately 90%.
- Built consultation and payment workflows integrating Stripe/Stripe Connect, PayU and PayPal that enabled more than \$10K in additional monthly revenue.
- Designed and optimized PostgreSQL schemas, indexes, migrations and SQL/JSONB operations, and troubleshoot production issues across frontend, backend, integrations and data layers.
- Improved delivery reliability with Docker, GitHub Actions CI/CD, automated build/test/type-check pipelines, SonarCloud quality gates, health/readiness checks and Sentry monitoring.
- Work directly with business stakeholders to clarify ambiguous requirements, prioritize high-impact work and iterate quickly from idea through maintained production software.

Software Engineer - INDRA Company | Bogota, Colombia | Jun 2021 - Sep 2022

- Developed and maintained backend API services supporting enterprise applications and reliable cross-system data exchange.
- Built Python ETL and automation scripts using regex and JSON/XML parsing to normalize heterogeneous data sources and reduce repetitive manual processing.
- Investigated SQL and NoSQL data-integrity issues, supported Linux-based integrations and collaborated cross-functionally to improve system stability.

EDUCATION

Software Engineering Technician Diploma (With Honors) - Centennial College, Toronto, Ontario | Dec 2023 | GPA: 3.9

Computer System and Network Specialist Diploma (With Honors) - Evergreen College, Toronto, Ontario | Feb 2023 | GPA: 4.0

Bachelor's in Computer Engineering - Universidad Nacional de Colombia, Bogota | Feb 2022 | GPA: 3.7

SELECTED CERTIFICATIONS

- Deep Learning Specialization - Coursera
- Neural Networks and Deep Learning - Coursera
- Structuring Machine Learning Projects - Coursera
- Data Analysis with Python - Cognitive Class / IBM Developer Skills Network
- Python 101 for Data Science - Cognitive Class / IBM Developer Skills Network
